

Curriculum

In **Art**, the children will be learning the following skills: printing and creating patterns using ICT.

In **English**, linked to Create, we will be using a wordless picture book, and later, paintings by master artists, to inspire our writing and explore the question 'Can a picture tell a story?'. We will continue to focus on using a range of punctuation and vocabulary accurately, building it into well-planned stories. We will also be looking at different ways to start stories.

In **Science**, we will be learning about how plants grow and reproduce.

In **Design and Technology**, we will be exploring sewing skills with the aim of making a purse or wallet.

In **Music**, we will be composing our own short pieces and performing these as part of an ensemble. We will also be analysing a range of musical styles and traditions.

In **French**, the children will be improving their conversational skills and vocabulary.

Wow event!

To launch our Create theme the children will be exploring stop-frame animation by looking at popular examples created by the Aardman Studios.
