

Rachel Daly  
Parent Governor

I have been a Parent Governor since May 2021, am the Safeguarding Governor and sit on the teaching & learning committee. I have three children, all of them attended Claremont, with the youngest now in his final year at the school.

I have been a nurse for over 25 years and have worked at local secondary schools, with a wealth of experience in safeguarding, mental well-being and children's health. I currently work as a nurse case manager, which involves developing, implementing and reviewing healthcare plans for clients with serious injuries and chronic illnesses from childhood. I have a huge interest in our local community and am actively involved with various voluntary roles, including being part of the governing board of a local secondary school.

Outside of my work and governing roles, I love sport, particularly netball and rugby and am a huge advocate in all children having the opportunities to get involved and the importance this brings to their development.
