

## **Jaz Sansoye**

Co-opted Governor

I joined the governing body in March 2025 and chair the Resources Committee, which oversees the school's finances, premises and staffing structure.

I work in consulting, advising organisations on competition, regulation and economics issues. Before that, I spent several years at the UK's financial services regulator, where I led its corporate strategy function with a focus on strategic planning and prioritisation. I hope to bring some of that experience in finance, strategy and governance to the work of the governing board.

I live very close to the school with my wife and young children. I'm so pleased to find a way to support the school and contribute to the area where we live.
